Credit - the good, bad, ugly

Credit – most of us use it, but do you really know how to use it well? Credit cards and loans can be convenient and helpful if used well, or devastating if used badly. Hallie and Shay will guide you through learning about effective credit card use and how to manage debt.

Credit is a growing problem in America – the misuse of it and the inability to get credit when needed. But credit doesn't have to be a problem for you if you manage it. Gone are the days that you could just assume that if you paid your bills you would be fine. Credit must be managed so that it does not negatively impact your life. Learn how your credit is used when getting a mortgage, getting a job and countless other areas of your life. Visit our new site www.getyourcredittogether.com to find out more about how you can manage your credit.

Personal Credit Review and Cash Flow Session – Offer ends soon!

During this individual review with a Certified Credit Report Reviewer, you will learn what your credit report says about you, how to address any negative issues on your report, and how to raise or maintain your credit score. We will discuss your household cash flow and work on ways to make sure more is coming in than is going out. Start the New Year off right with a personalized action plan to manage your credit and your household cash flow.

Schedule your appointment now and receive our Introductory rate. This special rate ends on February 28th, 2010, so book your appointment today!

Individual Session – Reg. \$99 – **Special \$69**
